

All men and women are invited to this engaging community discussion and planning session led by Tony Porter, co-founder of ***A Call To Men: National Association of Men and Women Committed to Ending Violence Against Women.***

A Call to Men believes that violence against women is not a women's issue, it is a civil rights issue. Although historically it has been almost entirely women who have been at the forefront addressing this subject, A CALL TO MEN believes it is essential that men play a primary role in the solution to end it. To do that, **well-meaning men... men who, for the most part don't see themselves as part of the problem...need to get involved.**
